

Android Wireless Connection Guide

June 21, 2012

1. Go into Wireless and networks which can be found inside the Settings Application.

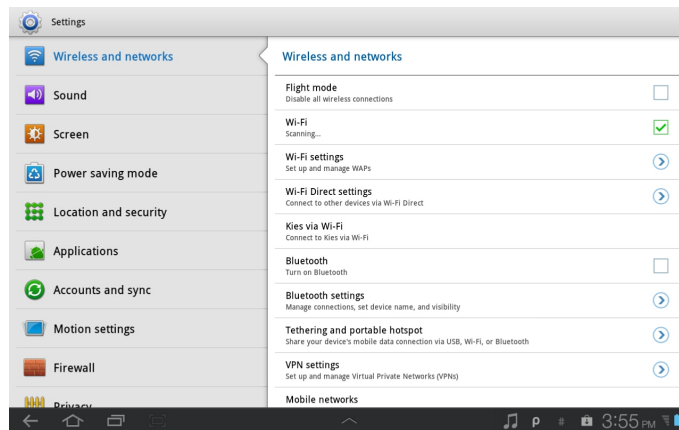

Figure 1: Wireless Settings

2. Select ASHS-Students from the List

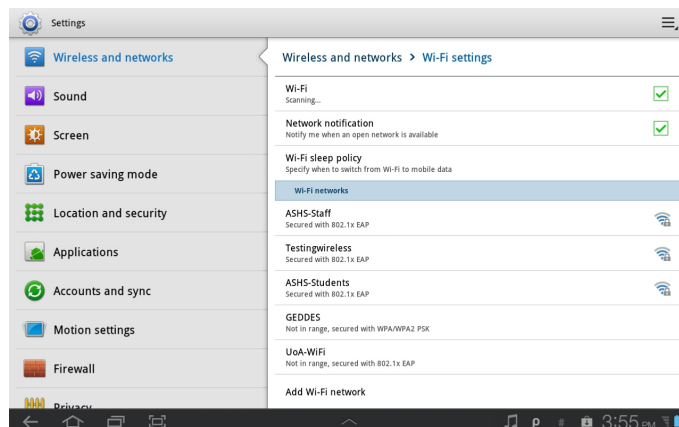

Figure 2: Select ASHS-Students

3. Set EAP method to be “PEAP” and Phase 2 authentication as “MSCHAPV2”
4. Put your username in the box labeled “Identity” and your password in the Password Box.
